TECHNOLOGY HOLDINGS HELD BY FAANG+

FAANG+ Fund Objective

The investment objective of the Sub-Fund is to generate capital growth mainly through exposure to the development, advancement and use of technology. The Sub-Fund will be invested predominantly in global technology equities some of which are familiarised by the acronym “FAANG” defining the most well-known technology equities, apart from the FAANG equities, the Sub-Fund will also invest in other large technology stocks. The Sub-Fund may at any point in time deviate from allocating assets to the FAANG equities if this is deemed feasible in order to achieve the investment objective of the Sub-Fund.

Why invest in FAANG+ UCITS

Growth Story

FAANG+ offers exposure to companies that dominate the technology sector and have a history of strong growth over the long-term.

Market Leaders in Different Sectors

UCITS diversified portfolio of the leading technology stocks in the S&P 500 Index and MSCI World Index. Exposure to some of the largest tech companies in the US, China, Taiwan, India, Korea & Europe.

Inflows from Passive Investors

The S&P 500 is a market capitalisation weighted Index. The market cap of the FAANG+ stocks and Microsoft represent approximately 26% of the S&P 500 Index. This means that for every \$100 invested into the S&P 500 Index, approximately \$26 is invested into FAANG stocks and Microsoft.

Broad Exposure to Global Technology Companies

FAANG+ holds names diversified across the Information Technology, Communication Services, Financials and Consumer Discretionary sectors, spread throughout four global geographic locations.

What's Ahead for the Tech Sector in 2025 | FTI Delta

Artificial Intelligence spending continued to drive growth in the tech sector

Generative AI is reshaping industries by automating workflows, facilitating creativity and enabling intelligent decision-making. Generative AI is not just a trend — it's a paradigm shift that redefines how businesses operate, innovate and compete. Unlike previous technological advancements that primarily enhanced efficiency, generative AI enables entirely new capabilities: automating decision-making, generating human-like content and continuously learning from data in real-time. This shift moves beyond simple automation to true intelligence, making AI an active participant in business strategy and execution rather than just an optimization tool.

Fund Overview

AQA UCITS Fund SICAV plc

is licensed in Malta by the Malta Financial Services Authority ("MFSA") as an undertaking for collective investment in transferable securities (UCITS) (the "Scheme"). FAANG+ UCITS Fund is a sub-fund within AQA UCITS Fund SICAV plc (the "Fund"). The Scheme and the Fund are managed by AQA Capital Ltd., a Maltese UCITS Management Company licensed by the MFSA (the "Manager"). Castlestone Management LLC provides advice in relation to the investments to be made by the Manager in respect of the Fund.

Investment Objective

The Fund will focus on US and global tech companies. The Fund will have no leverage and predominantly hold exchange traded equities diversified under 5/10/40 rules of UCITS. The fund will also have the ability to use an option strategy targeting premium income from selling covered call options against the underlying holdings.

What is FAANG

Facebook, Apple, Amazon, Netflix, Google. Each of the FAANG stocks is included in the S&P 500 Index. Since the S&P 500 is a broad representation of the market, the movement of the market mirrors the movement of the index. Together, the FAANGs make up approximately 19% of the S&P, which has a total of 500 of the largest companies trading on the NYSE and NASDAQ. Adding Microsoft to the FAANGs represents approximately 26% of the S&P 500 Index.

Holdings Concentration

We aim to maintain weightings for the top 5 holdings (FAANG) as close to 8% as possible. These 5 stocks cannot be over 40% of the portfolio. This helps clients who become concerned on soaring selected firm valuations skewing the portfolio concentration.

Why Own FAANG+ Stocks

FAANG+ stocks are some of the most popular and attractive stocks to own and should be considered in a portfolio due to their high growth potential. Approximately 26% of all money going into tracker funds of the S&P 500 Index and ETFs related to them both are allocated to FAANG+ stocks.

What is "+"

The equivalent major tech names in Emerging Markets that have the largest market capitalizations and so weightings in the index (MSCI Emerging Markets). We have also included the next major tech names in developed markets to give the portfolio diversification across more stocks.

Fund Information
